S1. EEG electrode positions.
S2. FFT amplitudes of individual participants Experiment 1.

6 Hz (horizontal)

15 Hz (vertical)

S3. Normalized FFT phases of individual participants in Experiment 1. Vector lengths represent FFT amplitudes.
S4. FFT amplitudes of individual participants in Experiment 2.

S5. Normalized FFT phases of individual participants in Experiment 2. Vector lengths represent FFT amplitudes.
S6. FFT amplitudes of individual participants in Experiment 3.

S7. Normalized FFT phases of individual participants in Experiment 3. Vector lengths represent FFT amplitudes.
