

Figure S1. VSS Population pyramids across years. For each year, the pyramid describes the VSS population in terms of registration (career) level and gender. Figure shows the proportion of male attendees (in yellow) and female attendees (in green) for each registration level (y-axis).

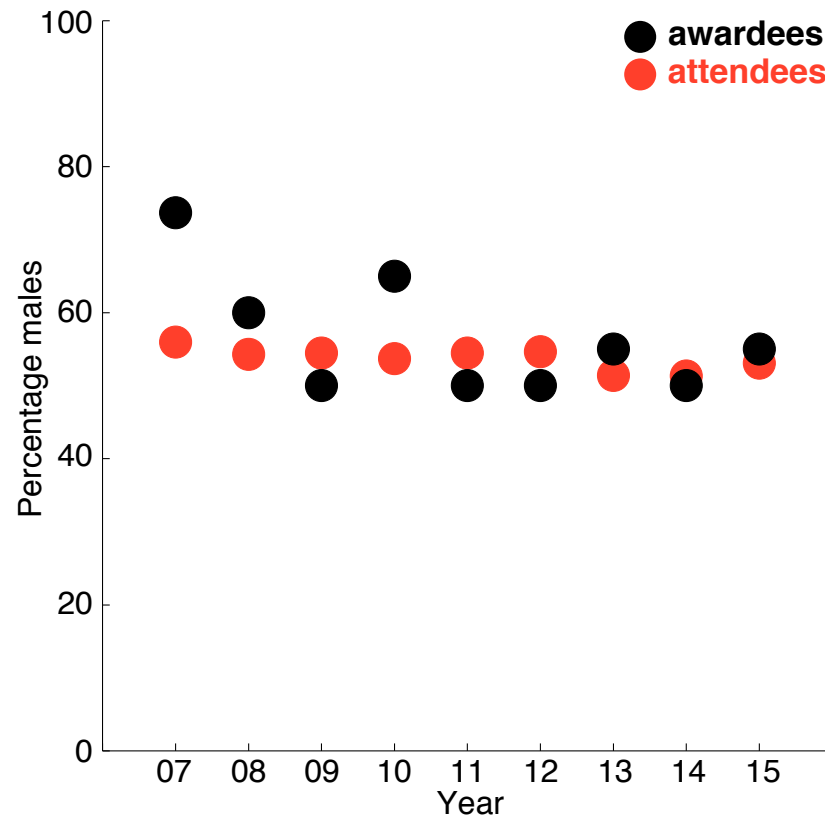

Figure S2. For each year (x-axis) the figure shows the proportion of the student travel awards given to male attendees (in red). The proportion of male pre-doctoral attendees for that conference year is shown in black for comparison.
